| THE STANDARDS AND TECHNICAL REQUIREMENTS FOR THE PRODUCTS |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| TYPE OF CERTIFICATION SCHEMES                             | Type Testing of Product + Initial Factory Inspection + Follow up Factory Inspection                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

This is to certify that the above mentioned product(s) complies with the requirements of certification rules of CQC12-000001-2020  
The validity of the certificate is subject to positive result of the regular follow up inspection by issuing certification body until the expiry date.

The certificate information is available through the QR code below or CNCA's website: [www.cnca.gov.cn](http://www.cnca.gov.cn)
